

# Certificate in Construction Trades Green Technology

## Program Overview

Upon completion of this certificate, students will have a solid foundation in “green” technologies and practices related to construction. The curriculum is aligned with national competency standards and trade-specific skills as designated by the Michigan Residential Builder, Maintenance and Alteration Contractor license, and local apprenticeship training programs. Students will develop the understanding and skills to build, inspect, and repair structures. Students will learn to effectively utilize trade-specific tools and equipment, learn how to read blueprints and plans, and develop the ability to manage projects while controlling costs.
